WHAT TEA DOES TO RHEUMATICS.

When you next take tea, think of this, Tea contains 175 grains of Uric Acid in every pound.

Meat contains only five to seven grains. Rheumatism is Uric Acid in the blood. Uric Acid accumulates from food when the digestive apparatus cannot create enough Alkaline elements (like soda) to

neutralize it. This Acid collects urea, or worn-out waste

matter, from the system. That Urea enters the blood when Alkaline action has not previously dissolved it. By and by the waste matter reaches the INJURY OF A THIRD MAN joints and muscles, through circulation of the blood.

There it gradually deposits in solid particles, like granulated sugar.

This pulpy covering grows to the bones, as well as to the particles deposited. There it hardens like plaster or sealing wax. Then we have "bony joints," almost inflexible, and usually fixed in a bended position, from the pain and inflammation.

That is Rheumatism at its worst.

It is bad enough before it gets that far. There is but one sure way of curing Rheumatism. The first step is to neutralize the Uric Acid already in the system. Next, | the creeks are swollen. to dissolve and carry away the hard deposits that grind between the joints. Then get the digestive apparatus into such healthy condition that it will, unaided, produce less Uric Acid, and more Alkalines.

This is what doctors generally have failed

It is what I studied a lifetime to accomplish, and achieved only after many failures and thousands of experiments. At last I found, in Germany, a solvent which was not only effective, but absolutely

DAMAGE BY LIGHTNING TO LAFAYETTE HOMES

Special to the Indianapolis Journal. LAFAYETTE, Ind., March 22.-Two houses in Lafayette were struck by lightning during a severe electrical storm this morning, the bolt doing considerable damage and causing panics in each case. The homes of Mrs. Annie Mack, at 1218 South street, and John Caine, of 2904 Cason street, were those struck, and both at the same time and in the same place. Harry and Wesley Mack, sons of Mrs. Mack, were asleep on the second floor when the bolt struck the house and tore away one side of the structure, leaving them exposed to the wind and rain. The boys were hurled from their beds and covered with debris, which caught fire, but was soon extinguished. Both were scratched and bruised. The side of the

house must be rebuilt. The Caine home also was struck close to one of the bedrooms on the second floor, in which John and George Caine were sleeping. The side of the house was torn away and burst into flames. The heavy downpour of rain prevented the destruction of the house. The men were injured but not seriously. The damage to the house is estimated at \$700.
